Executed with neatness and dispatch.

PRESIDENT'S MESSAGE.

To the Senate and

House of Representatives of the U. S.

If any people ever had cause to render up thanks to the Supreme Being for parental care and protection extended to them in all the trials and difficulties to which they have been from time to time exposed, we certainly are that people. From the first settlement of our forefathers on this continent—through the dangers attendant upon the occupation of a savage wilderness—through a long period of Colonial dependence—through the war of the Revolution—in the wisdom which led to the adoption of the existing Republican forms of Government—in the hazards incident to a war subsequently waged with one of the most powerful nations of the earth—in the increase of our population—in the spread of the arts and sciences, and in the strength and durability conferred on political institutions emanating from the people and sustained by their will—the superintendence of an overruling Providence has been plainly visible. As preparatory, therefore, to entering once more upon the high duties of legislation, it becomes us humbly to acknowledge our dependence upon Him as our guide and protector, and to implore a continuance of His parental watchfulness over our beloved country. We have new cause for the expression of our gratitude in the preservation of the health of our fellow citizens, with some partial and local exceptions, during the past season—for the abundance with which the earth yielded up its fruits to the labors of the husbandman—for the renewed activity which has been imparted to Commerce—for the revival of trade in all its departments—for the increased rewards attendant on the exercise of the mechanic arts—for the continued growth of our population and the rapidly reviving prosperity of the whole country. I shall be permitted to exchange congratulations with you, gentlemen of the two Houses of Congress, on these auspicious circumstances, and to assure you, in advance, of my ready disposition to concur with you in the adoption of all such measures as shall be calculated to increase the happiness of our constituents and to advance the glory of our common country.

Since the last adjournment of Congress, the Executive has labored to render inextinguishable the relations of amity which so happily exist between the United States and other countries. The treaty lately concluded with Great Britain has tended greatly to increase the good understanding which a reciprocity of interest is calculated to encourage, and it is most ardently to be hoped that nothing may transpire to interrupt the relations of amity which it is so obviously the policy of both nations to cultivate.

A question of much importance still remains to be adjusted between them. The territorial limits of the two countries in relation to what is generally known as the Oregon territory, still remain in dispute. The United States would be at all times inclined to aggrandize themselves at the expense of any other nation; but while they would be restrained by principles of honor, which should govern the conduct of nations as well as that of individuals, from setting up a demand for territory which does not belong to them, they would unwillingly consent to a surrender of their rights. After the most rigid, and as far as practicable, unbiased examination of the subject, the U. States have always contended that their rights appertain to the entire region of country lying on the Pacific, and embraced within the forty-second and fifty-fourth degrees of North latitude. This claim being controverted by Great Britain, those who have presided over the present Executive, actuated, no doubt, by an earnest desire to adjust the matter upon terms mutually satisfactory to both countries, have caused to be submitted to the British Government, propositions for settlement and final adjustment, which, however, have not proved heretofore acceptable to it. Our Minister at London, has, under instructions, again brought the subject to the consideration of the Government; and while nothing will be done to compromise the rights or honor of the United States, every proper expedient will be resorted to in order to bring the negotiation now in the progress of resumption, to a speedy and happy termination. In the meantime it is proper to remark that many of our citizens are either directly established in the territory, or are on their way thither for the purpose of forming permanent settlements, while others are preparing to follow—and in view of these facts, I must repeat the recommendation contained in previous messages, for the establishment of military posts, at such places, on the line of travel, as will furnish security and protection to our hardy adventurers against hostile tribes of Indians inhabiting these extensive regions. Our laws should also follow them, so modified as the circumstances of the case may seem to require. Under the influence of our free system of government, new republics are destined to spring up, at no distant day, on the shores of the Pacific, similar in policy and in feeling to those existing on this side of the Rocky Mountains; and giving a wider and more extensive spread to the principles of civil and religious liberty.

I am happy to inform you that the cases which have arisen from time to time, of the detention of American vessels by the British cruisers on the coast of Africa, under a pretence of being engaged in the slave trade, have been placed in a fair train of adjustment. In the case of the William and Francis, full satisfaction will be allowed. In the cases of the Tyriss and Seamew, the British Government admits that satisfaction is due. In the case of the Jones, the sum accruing from the sale of that vessel and cargo will be paid to the owners—while I cannot but flatter myself that full indemnification will be allowed for all damages sustained by the detention of vessels—and in the case of the Douglas, her Majesty's Government has expressed its determination to make indemnification. Strong hopes are therefore entertained that most, if not all of these cases will be speedily adjusted. No new cases have arisen since the ratification of the Treaty of Washington; and it is confidently anticipated, that the slave

trade, under the eighth article of that treaty, will be altogether suppressed.

The occasional interruption experienced by our fellow citizens engaged in the fisheries on the neighboring coast of Nova Scotia, has not failed to claim the attention of the Executive. Representations upon this subject have been made, but as yet no definite answer to those representations has been received from the British Government.

Two other subjects of comparatively minor importance, but nevertheless of too much consequence to be neglected, remain still to be adjusted between the two countries. By the Treaty between the United States and Great Britain, of July, 1815, it is provided that no higher duties shall be levied in either country on articles imported from the other place. In 1836, rough rice, by act of Parliament, was admitted from the coast of Africa into Great Britain on the payment of a duty of one penny a quarter, while the same article from all other countries, including the United States, was subjected to the payment of a duty of twenty shillings a quarter. Our Minister at London has from time to time brought this subject to the consideration of the British Government, but so far without success. He is instructed to renew his representations upon it.

Some years since a claim was preferred against the British Government on the part of certain American merchants, from the return of export duties paid by them on shipment of woolen goods to the United States, after the duty on similar articles exported to other countries had been repealed, and consequently in contravention of the commercial convention between the nation securing to us equality in such cases. The principle on which the claim rests has long since been virtually admitted by Great Britain, but obstacles to a settlement have from time to time been interposed; so that a large portion of the amount claimed has not yet been refunded. Our Minister is now engaged in the prosecution of the claim, and I cannot but persuade myself that the British Government will no longer delay its adjustment.

I am happy to be able to say that nothing has occurred to disturb in any degree the relations of amity which exist between the United States and France, Austria, and Russia, as well as with the other Powers of Europe, since the adjournment of Congress. Spain has been agitated with internal convulsions for many years, from the effects of which it is to be hoped she is destined speedily to recover—when under a more liberal system of commercial policy on her part, our trade with her may again fill its old and so far as her continental possessions are concerned, its almost forsaken channels, thereby adding to the mutual prosperity of the two countries.

The Germanic Association of Customs and Commerce, which, since the establishment in 1833, has been steadily growing in power and importance, and consists at this time of more than twenty German States and embraces a population of 27,000,000 of people united for all the purposes of commercial intercourse with each other and with foreign states, offers to the latter the most valuable exchanges on principles more liberal than are now offered in the fiscal system of any other European power. From its origin, the importance of the German Union has never been lost sight of by the United States.

The industry, morality and other valuable qualities of the German nation, have always been well known and appreciated. On this subject I invite the attention of Congress to the report of Secretary of State, from which it will be seen that while our cotton is admitted free of duty, and the duty on rice has been much reduced, which has already led to a greatly increased consumption, a strong disposition has been recently evinced by that great body to reduce, upon certain conditions, their present duty upon tobacco. This being the first intimation of a concession on this interesting subject ever made by any European power, I cannot but regard it as well calculated to remove the only impediment which has so far existed to the most liberal commercial intercourse between us and them. In the view, our Minister at Berlin, who has heretofore industriously pursued the subject, has been instructed to enter upon the negotiation of a commercial treaty, which, while it will open new advantages to the agricultural interests of the United States, and a more free and expanded field for commercial operations, will effect injuriously no existing interest of the Union. Should the negotiation be crowned with success, its result will be communicated to both Houses of Congress.

I communicate herewith certain despatches received from our Minister at Mexico, and also a correspondence which has recently occurred between the Envoy from that Republic and the Secretary of State. It must be regarded as not a little extraordinary that the Government of Mexico in anticipation of a public discussion which it had been pleased to infer from newspaper publications as likely to take place in Congress, relating to the annexation of Texas to the United States, should have so far anticipated the result of such discussion as to have announced its determination to visit any such anticipated decision by a formal declaration of war against the United States.

If designed to prevent Congress from introducing that question, as a fit subject for its calm deliberation and final judgment, the Executive has no reason to doubt that it will entirely fail of its object. The Representatives of a brave and patriotic people will suffer no apprehension of future consequences to embarrass them in the course of their proposed deliberations. Nor will the Executive Department of the Government fail, for any such cause, to discharge its whole duty to the country.

The war which has existed for so long a time, between Mexico and Texas, has, since the battle of San Jacinto, consisted for the most part of

predatory incursions, which, while they have been attended with much suffering to individuals, and have kept the border of the two countries in a state of constant alarm, have failed to approach to any definite result. Mexico has fitted out no formidable armament by land or by sea, for the subjugation of Texas. Eight years has now elapsed since Texas declared her independence of Mexico, and during that time she has been recognized as a sovereign power by several of the principal civilized states. Mexico, nevertheless, perseveres in her plans of reconquest, and refuses to recognize her independence. The predatory incursions to which I have alluded, have been attended, in one instance, with the breaking up of the courts of justice by the seizing upon of the persons of the judges, jury and officers of the court, and dragging them along with unarmed, and therefore non-combatant citizens, into a cruel and oppressive bondage, thus leaving crime to go unpunished and immorality to pass unreprieved.

A border warfare is evermore to be deprecated and ever such a war as has existed for so many years between these two states, humanity has had great cause to lament. Nor is such a condition of things to be deplored only because of the individual suffering dependent upon it. The effects are far more extensive. The Creator of the Universe has giving man the earth for a resting place, and its fruits for his subsistence. Whatever, therefore, shall make the first or any part of it a scene of desolation, affects injuriously his heritage, and may be regarded as a general calamity. War may sometimes be necessary; but all nations have a common interest in bringing them speedily to a close. The United States have an immediate interest in seeing an end put to the state of hostilities existing between Mexico and Texas. They are our neighbors, of the same continent, with whom we are not only desirous of cultivating the relations of amity, but of the most extended commercial intercourse, and to practice all the rights of a neighborhood hospitality.

Our own interests are deeply involved in the matter, since however neutral may be our course of policy, we cannot hope to escape the effects of a spirit of jealousy on the part of both of the powers. Nor can this Government be indifferent to the fact that a warfare, such as is waged between those two nations, is calculated to weaken both powers, and finally render them and especially the weaker of the two, the subject of interference on the part of stronger and more powerful nations, which, intent only on advancing their own peculiar views, may sooner or later attempt to bring about a compliance with terms, as the condition of their interposition, alike derogatory to the nation granting them and detrimental to the interests of the United States. We could not be expected quietly to permit any such interference to our disadvantage. Considering that Texas is separated from the United States by a mere geographical line, that her territory in the opinion of many, formed a portion of the territory of the United States that it is homogeneous in its population and pursuits with the adjoining States, makes contributions to the commerce of the world in the same articles with them, and that most of her inhabitants have been citizens of the United States, speaks the same language and live under similar political institutions with ourselves, this Government is bound by every consideration of interest as well as of sympathy, to see that she shall be left free to act, especially in regard to her domestic affairs undisturbed by force, and unrestrained by the policy or views of other countries.

In full view of these considerations, the Executive has not hesitated to express to the Government of Mexico how deeply it deprecated a continuance of the war, and how anxiously it desired to witness its termination. I cannot but think it becomes the United States, as the oldest of the American Republics, to hold a language to Mexico upon this subject of an unambiguous character. It is time that this war had ceased. There must be a limit to all wars; and if the parent State, after an eight years struggle, has failed to reduce to submission a portion of its subjects standing out in revolt against it, and who have not only proclaimed themselves to be independent, but have been recognized as such by other powers, she ought not to expect that other nations will quietly look on, to their obvious injury, upon a protraction of hostilities.

These United States threw off their colonial dependence, and established independent Governments; and Great Britain, after having wasted her energies in the attempt to subdue them for a less period than Mexico has attempted to subjugate Texas, had the wisdom and justice to acknowledge their independence, thereby recognizing the obligation which rested on her as one of the family of nations. An example thus set by one of the proudest as well as most powerful nations of the earth, it could in no way disparage Mexico to imitate. While, therefore, the Executive would deplore any collision with Mexico, or any disturbance of the friendly relations which exist between the two countries, it cannot permit that Government to control its policy, whatever it may be, towards Texas; but will treat her as by the recognition of her independence the United States have long since declared they would do, as entirely independent of Mexico. The high obligations of public duty may enforce from the constituted authorities of the United States a policy which the course preserved in Mexico will have mainly contributed to produce; and the Executive, in such a contingency, will with confidence throw itself upon the patriotism of the people to sustain the Government in its course of action.

Measures of an unusual character have recently been adopted by the Mexican Government, calculated in no small degree to affect the trade

of other nations with Mexico, and to operate injuriously to the United States. All foreigners by a decree of the 22d day of September, and after six months from the day of its promulgation, are forbidden to carry on business of selling by retail any goods within the confines of Mexico. Against this decree our Minister has not failed to remonstrate.

The trade heretofore carried on by our citizens with Santa Fe, in which much capital was already invested, and which was becoming of daily increasing importance, has suddenly been arrested by a decree of virtual prohibition on the part of the Mexican Government. Whatever may be the right of Mexico to prohibit any particular course of trade to the citizens or subjects of foreign powers, this late procedure, to say the least of it, wears a harsh and unfriendly aspect.

The installments on the claims recently settled by the Convention with Mexico, have been punctually paid as they have fallen due, and our Minister is engaged in urging the establishment of a new commission in pursuance of the Convention for the settlement of unjust claims.

With the other American States our relations of amity and good will have remained unimpaired. Our Minister near the Republic of New Grenada has succeeded in effecting an adjustment of the claim upon that Government for the schooner "By Chance," which had been pending for many years. The claim for the brig "Morris," which had its origin during its existence of the Republic of Columbia, and indemnification for which, since the dissolution of that Republic, has devolved on its several members, will be urged with renewed zeal.

I have much pleasure in saying that the Government of Brazil has adjusted the claim upon that Government in the case of the schooner "John S. Bryan," and that sanguine hopes are entertained that the same spirit of justice will influence its councils in arriving at an early decision upon the remaining claims, thereby removing all cause of dissension between the two Powers, whose interests are to some extent interwoven with each other.

Our Minister at Chili has succeeded in inducing a recognition by that Government, of the adjustment effected by its predecessor, of the first claims in the case of the "Macedonian." The first installment has been received by the claimants in the United States.

Notice of the exchange of ratifications of the treaty with Peru, which will take place at Lima has not yet reached this country, but is shortly expected to be received, when the claims upon that Republic will doubtless be liquidated and paid.

In consequence of a misunderstanding between this Government and that of Buenos Ayres, occurring several years ago, this government has remained unrepresented at that court, while a minister from it has been constantly resident here. The causes of irritation have in a great measure passed away, and it is in contemplation, in view of important interests which have grown up in that country, at some early period during the present session of Congress, with the concurrence of the Senate, to restore diplomatic relations between the two countries.

Under the provisions of an act of Congress of the last session, a Minister was despatched from the United States to China, in August of the present year, who, from the latest accounts we have from him, was at Suez, in Egypt, on the 25th of September last, on his route to China.

In regard to the Indian tribes residing within our jurisdictional limits the greatest vigilance of the Government has been exerted to preserve them at peace among themselves, and to inspire them with feelings of confidence in the justice of this Government, and to cultivate friendship with the border inhabitants. This happily succeeded to a great extent; but it is a subject of regret that they suffer themselves in some instances to be imposed upon by artful and designing men—and this notwithstanding all the efforts of the Government to prevent it.

The receipts into the Treasury for the calendar year 1842, exclusive of loans, were little more than eight millions of dollars; and the expenditures exclusive of payments on the public debt, will have been about twenty-three millions of dollars. By the Act of 1843, a new arrangement of fiscal year was made so that it should commence on the first day of July of each year.

The accounts and estimates for the current fiscal year, will show that the loans and Treasury notes made and issued before the close of the last Congress, to meet the anticipated deficiency, have not been entirely adequate. Although on the first of October last, there was a balance in the Treasury in consequence of the provision thus made of \$9,914,082 77, yet the appropriations already made by Congress will absorb that balance, and leave a probable deficiency of two millions of dollars at the close of the present fiscal year. There are outstanding Treasury notes to about the amount of four millions six hundred thousand dollars; and should they be returned upon the Treasury during the fiscal year, they will require provision for their redemption. I do not, however, regard this as probable, since they have obviously entered into the currency of the country, and will continue to form a portion of it, if the system now adopted be continued. The loan of 1841 amounting to \$5,673,076 88, falls due on the first of January 1845, and must be provided for or postponed by a new loan. And unless the resources of revenue should be materially increased by you, there will be a probable deficiency for the service of the fiscal year ending June 30, 1845, of upwards of about four millions of dollars.

The delusion incident to an enormously excessive paper circulation, which gave a fictitious value to everything, and stimulating adventure

and speculation to an extravagant extent, has been happily succeeded by the substitution of the precious metals and paper promptly redeemable in specie, and the false values have disappeared, and a sounder condition of things has been introduced. This transition although intimately connected with the prosperity of the country, has nevertheless been attended with much embarrassment to the Government, in its financial concerns. So long as the foreign importers could receive payment for their cargoes in a currency of greatly less value than that in Europe, but fully available here in the purchase of our agricultural productions, their profits being immeasurably augmented by the operation, the shipments were large and the revenues of the Government became superabundant. But the change in the character of the circulation from a nominal and apparently real value, in the first stages of its existence, to an obviously depreciated value in its second, so that it no longer answered the purposes of exchange or barter and its ultimate substitution by a sound metallic and paper circulation combined, has been attended by diminished importations, and a consequent falling off in the revenue.

This has induced Congress, from 1837 to resort to the expediency of issuing Treasury notes and finally in funding them, in order to supply deficiencies. I cannot, however, withhold the remark that it is in no way compatible with the dignity of the Government that public debt should be created in time of peace to meet the current expenses of the Government, or that temporary expedients should be resorted to an hour longer than it is possible to avoid them. The Executive can do no more than apply the means which Congress places in its hands for the support of the Government; and happily for the good of the country and for the preservation of its liberties, it possesses no power to levy exactions on the people, or to force from them contributions to the public revenue in any form. It can only recommend such measures as may, in its opinion, be called for by the wants of the public service, to Congress, with whom alone rests the power to "lay and collect taxes, duties, imposts, and excises." This duty has upon several occasions heretofore been performed. The present condition of things gives a flattering promise that trade and commerce are rapidly reviving, and, fortunately for the country, the sources of revenue have only to be opened, in order to prove abundant.

While we can anticipate no considerable increase in the proceeds of the sales of the public lands for reasons perfectly obvious to all, for several years to come, yet the public lands cannot otherwise than be regarded as the foundation of the public credit. With so large a body of the most fertile lands in the world, under the control and at the disposal of the Government, no one can reasonably doubt the entire ability of the Government to meet its engagements under every emergency. In seasons of trial and difficulty similar to those through which we are passing, the capitalist makes his investments in the Government stocks with the most assured confidence of ultimate reimbursement; and whatever may be said in a period of great financial prosperity, such as existed for some years after 1833, I should regard it as suicidal in a season of financial embarrassment either to alienate the lands themselves, or the proceeds arising from their sales.

The first and paramount duty of those to whom may be entrusted the administration of public affairs, is to guard the public credit. In re-establishing the credit of this central Government, the readiest and most obvious mode is taken to restore the credit of the States. The extremities can only be made sound by producing a healthy action in the Central Government, and the history of the present day fully establishes the fact that an increase in the value of the stocks of this Government will, in a majority of instances, be attended by an increase in the value of the stocks of the States. It should, therefore, be a matter of general congratulation that amidst all the embarrassments arising from surrounding circumstances, the credit of the Government should have been so fully restored that it has been enabled to effect a loan of several millions of dollars to redeem that amount of Treasury notes, on terms more favorable than any that have been offered for many years. And the 6 per cent stock which was created in 1841 has advanced in the hands of the holders to nearly twenty per cent above its par value. The confidence of the people in the integrity of their Government has thus been signally manifested. These opinions relative to the public lands do not in any manner conflict with the observance of the most liberal policy towards those of our fellow citizens who press forward into the wilderness and are the pioneers in the work of its reclamation. In securing to all such their rights of pre-emption, the Government not only forms but an act of retributive justice for the labors endured, and funds ample remuneration in the comforts its policy ensures and the happiness which it imparts.

Should a revision of the tariff, with a view to revenue, become necessary in the estimation of Congress, I doubt not you will approach the subject with a just and enlightened regard to the interests of the whole Union. The principles and views which I have heretofore had occasion to submit, remain unchanged. It can, however, never be too often repeated, that the prominent interest of every important pursuit of life, requires for success, permanence and stability in legislation. These can only be attained by adopting, as the basis of action, moderation in all things, which is indispensably necessary to secure the harmonious action of the political as of the animal system. In our political organization, no one section of the

The operations of the Treasury now rest on the act of 1789, and the resolution of 1816, and those laws have been so administered as to produce as great a quantum of good to the country as their provisions are capable of yielding. If there had been any distinct expression of opinion going to show that public opinion is adverse to the plan, either as heretofore recommended to Congress, or in a modified form, while my own opinion in regard to it would re-

It gives me great pain to announce to you the loss of the steamship "Missouri," by fire in the

great measure restored, and the credit of this Government fully and perfectly re-established. Commerce is becoming more and more extended in its operations, and manufacturing and mechanical industry once more reap the rewards of skill and labor honestly applied. The operations of trade rest on a sound currency, and the rates of exchange are reduced to their lowest amount. In this condition of things I have felt it to be my duty to bring to your favorable consideration matters of great interest in their present and ultimate results, and the only desire which I feel in connection with the future is, and will continue to be, to leave the country prosperous, and its institutions unimpaired.

WASHINGTON, December 1843,

The Jury were out three hours and an half. The amount of the embezzlement is \$350,000 the largest part of which Wyman says went to the firm of Stanley, Reed & Co., but as the two active partners are dead this cannot be ascertained. The failure of the Bank was a very severe affliction to the citizens of Charlestown, many widows and orphans and families of small means had invested their all in the stock, which has been totally sunk. — Bangor Daily

For sale at this Office.

WRIGHT'S INDIAN VEGETABLE PILLS.
Of the North American College of Health.
NATURAL PRINCIPLES. It is written in the book of nature and common sense, that the natural vegetable productions of every country are, if properly applied, amply sufficient for the cure of every malady incident to that climate.
WRIGHT'S INDIAN VEGETABLE PILLS are composed of plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than medicines concocted from foreign drugs, however well they may be compounded; and as they are founded upon the principle that the human body is in truth subject to
ONLY ONE DISEASE,
viz: corrupt humors, or in other words, impurity, and cure every form of this one disease, on natural principles, that is, by Cleaning and Purifying the Body, it must be plain to every reflecting mind that a perseverance in the use of the medicine, according to directions, will be absolutely certain to drive every malady from the body.
When we wish to restore a swamp or morass to fertility, do we not drain it of its superabundant water? In like manner, if we would restore the body to health, we must cleanse it of impurity.
WRIGHT'S INDIAN VEGETABLE PILLS will be found a delicious medicine for carrying out this grand purifying principle, because they expel all morbid and corrupt humors, the cause of disease, in an easy and natural manner, and while they every day,
GIVE EASE AND PLEASURE,
disease of every name is rapidly driven from the body.
Beware of Counterfeits!
The patrons of Wright's Indian Vegetable Pills are cautioned against being deceived by medicine purporting to be Indian Pills, manufactured by A. L. ROGERS, who is travelling about the country, endeavoring by every artifice to palm off his worthless trash for the genuine.
It should be remembered that all genuine medicine has the title expressed in full on the sides of the boxes, thus—
WRIGHT'S INDIAN VEGETABLE PILLS,
OF THE NORTH AMERICAN COLLEGE OF HEALTH.
And that all Travelling Agents are provided with a certificate of the N. A. Coll. of Health. All travellers, therefore, who of the Indian Pills for sale, and cannot show a certificate of Agency as above described, will be known as wicked impostors. Purchasers will further remember that the counterfeits in the hope of evading the law, have omitted the name of "Wright" and substituted some other words in its place, the medicine must have the words
"WRIGHT'S INDIAN VEGETABLE PILLS,"
on the sides of the boxes; and that all with the above omissions are positively spurious.
And also round the borders of the label will be found in small type "Entered according to an Act of Congress, in the year 1841, by William Wright, in the Clerk's Office of the District Court of the Eastern District of Pennsylvania."
It will further be observed that the printed directions for using the medicine, which accompanies each box, are also enclosed according to Act of Congress; and the same form will be found in the box of the first page.
The public will also remember that all who sell the genuine Indian Vegetable Pills, are provided with a certificate of Agency, signed by
WILLIAM WRIGHT, Vice President
Of the North American College of Health.
This it will be seen, that trifling attention on the part of the purchaser to the above particulars, will put an effectual stop to this wholesale robbery, and drive it, it is hoped, all depredators upon society to an honest calling.
The following highly respectable persons have been appointed agents for the sale of the above invaluable medicine,

WRIGHT'S INDIAN VEGETABLE PILLS

OF THE NORTH AMERICAN COLLEGE OF HEALTH.
NATURAL PRINCIPLES. It is written in the book of nature and common sense, that the natural state of the human body is health, and that the natural production of every country, if properly applied, is sufficient for the cure of every malady incident to that climate.

WRIGHT'S INDIAN VEGETABLE PILLS are composed of plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than medicines concocted from foreign drugs, however well they may be compounded; and as they are founded upon the principle that the human body is in truth subject to

ONLY ONE DISEASE, viz: corrupt humors, or in other words, impurity, and cure every form of this one disease, on natural principles, that is, by cleansing and purifying the body, it must be plain to every reflecting mind that a perseverance in the use of the medicine, according to directions, will be absolutely certain to drive every malarious from the body.

When we wish to restore a swamp or morass to fertility, do we not drain it of its superabundant water? In like manner, if we would restore the body to health, we must cleanse it of impurity.

WRIGHT'S INDIAN VEGETABLE PILLS will be found a delightful medicine for carrying out this grand purifying principle, because they expel all morbid and corrupt humors, the cause of all diseases, in an easy and natural manner, and while they every day.

GIVE EASE AND PLEASURE, disease of every name is rapidly driven from the body.

Beware of Counterfeits! The patrons of Wright's Indian Vegetable Pills are cautioned against being deceived by medicine purporting to be Indian Pills, manufactured by one A. L. NOCROSS, who is travelling about the country, endeavoring by every artifice to palm off his worthless trash as the genuine.

It should be remembered that all genuine medicine has the title expressed in full on the sides of the boxes thus:—
WRIGHT'S INDIAN VEGETABLE PILLS,
(INDIAN PURGATIVE)

Of the North American College of Health.

And that all Travelling Agents are provided with a certificate of Agency, signed by William Wright, Vice President of the N. A. C. of Health.

Of the North American College of Health.

Purchasers will further remember that the counterfeits in the hope of evading the law, have omitted the name of "Wright" and substituted some other words in its place, the medicine must have the words

"WRIGHT'S INDIAN VEGETABLE PILLS" on the sides of the boxes; and that all with the above omissions are positively spurious.

And also round the borders of the label will be found in small type "Entered according to an Act of Congress, in the year 1840, by William Wright, in the Clerk's Office of the District Court of the Eastern District of Pennsylvania."

It will further be observed that the printed directions for using the medicine, which accompanies each box, are also enclosed according to Act of Congress, and the same form will be found at the bottom of the first page.

The public will also remember that all who sell the genuine Indian Vegetable Pills, are provided with a certificate of Agency, signed by

WILLIAM WRIGHT, Vice President
Of the North American College of Health.

Thus it will be seen, that trifling attention on the part of the purchaser to the above particulars, will put an effectual stop to this wholesale robbery, and drive it, it is hoped, all depredators upon society to an honest calling.

The following highly respected persons have been appointed agents for the sale of the above invaluable medicine.

AGENTS.
Oxford County.

Andover, Lewis Crockett.
Albany, Jacob H. Lovejoy.
Bethel, Ira C. Kimball.
Bethel, E. Elias M. Carter & Co.

Brownfield, Daniel Tyler.
Buckfield, E. & L. Atwood.
Canton Mills, J. M. Dehon.
Canton, Holland & Austin.
Dixfield, Chase & Austin.
Dixfield, E. H. J. Dakin.

\$10,000 REWARD

Will be paid to any Physician who will produce a better Compound for Family use than the

GENUINE DUTCH OR GERMAN VEGETABLE PILLS.

STYLED
THE LION OF THE DAY.

TO the inhabitants of the United States and the Canadas—The Pills, well called the Lion of the Day, are respectfully recommended to the attention and trial of all those subject to the attacks of Biliousness, Dyspepsia, and all other Chronic diseases of the stomach, liver and bowels. These Pills have long been without a successful rival in Germany, and throughout Europe, and many years in various parts of the United States, by the most eminent Physicians, as a Family Medicine.

This Pill is composed of extracts from nine parts of the Vegetable Kingdom. They are warranted safe in their operation and effects. They are simple in their preparation, mild in their effects, and unvaried in their results. They have long received the most flattering recommendation from the Medical Faculty; such men as Dr. Hall, and Dr. Guernsey, of N. York; Dr. Delamater, Dr. Hoessack, and Dr. Landon, of Dutchess county; and Hon. B. Peck, M. D., of Glen Falls—these men have long stood at the head of their profession.

Again: gastric irritation debilitates the digestive organs, and becomes a fruitful source of disease: in some people Dyspepsia, in others, Liver Complaint, Rheumatism, Hypochondria, Asthma, Gout, Piles, Epilepsy, Low Spirits, Chronic Diarrhoea, Pulmonary Consumption, Sick Headache, Eruption of the Skin, Salt Rheum, St. Anthony's Fire, Yellow and Bilious Fevers, Fever and Ague, Heartburn, Constipation, Female Weakness, Intermittent and Remittent Fevers, Erysipelas, Spinal Head, Humors, and all Bilious complaints. These different complaints are each one and about the same, followed by a train of others, equally as detrimental, and perhaps fatal to human life. Like bad legislation, one bad law must be supported by others equally as injurious to the property of the State. A perfectly healthy body is like a well tuned instrument, every string of which vibrates in unison, and the least injury to any one throws it into disorder.

These Pills are not intended as a thorough purgative, as some will have it; they are intended to strengthen the system that has run down, and regulate the whole human structure, and remove all obstruction and assist nature in its vital laws.

For sale in almost every town in the United States and the Canadas. Price 25 cts. Vegetables you get the Lion of the Day, having the written name of Merritt Griffin on each box.

For full particulars, see small circulars deposited with each agent below mentioned.
